

**LEON MEGÉ**  
*The Art of Platinum™*

### Ring size measuring chart

Please use this chart as a guideline only - it's very imprecise. The best way to determine your ring size is to visit Leon Megé and have your size measured. Please verify the scale by placing a quarter on the circle.

### For men only:

There is no need to cut any holes in this paper.

Just put her ring on top of one of the circles and see which one matches better.

Remember that:

- her ring might be bent or distorted and you will not be able to get a correct measurement
- it might be her ring but worn on a wrong finger
- she might be wearing the ring on the right finger, but the ring itself is too big
- do not attempt using this chart while intoxicated or during a playoff game.
- remember that average finger size is 6 in the U.S. It's highly unlikely that 100 lbs. 5'4" girl is size 12 (if she is - run)

US ring sizes, for International ring sizes chart please visit our web site or call for assistance.

Scan the code in the upper right corner to go directly to the finger sizing chart.
